PROFESSIONAL SUMMARY

Senior business analyst with 7+ years bridging finance and technology in financial services, currently completing M.S. in Computer Science at NYU. Track record leading multi-stakeholder change initiatives, translating business requirements into scalable solutions, and establishing KPI-driven dashboards to inform decision-making. Combine deep financial acumen (bond modeling, ROI forecasting, securitization governance) with hands-on technical delivery in Python, SQL, ML, and AWS.

EDUCATION

Master of Science in Computer Science September 2024 – May 2026 (Expected)
New York University, Tandon School of Engineering New York, NY

Coursework focus: Software Engineering, Artificial Intelligence, Data Analytics | GPA: 3.926

Bachelor of Science in International Business December 2016
Northeastern University, D'Amore-McKim School of Business Boston, MA

Magna Cum Laude, Dean's List, Presidential Global Scholarship | GPA: 3.804

PROFESSIONAL EXPERIENCE

NYU Office of Global Services New York, NY
Tech Intern February 2025 – Present

- Manage 200+ shared workstations across two NYU offices: provisioning and setting up new hardware, troubleshooting break-fix issues, deploying software and patches via BigFix, and triaging IT support requests in ServicePRO
- Develop JavaScript automation tooling for bulk user-profile cleanup on multi-user lab machines (reclaiming memory on shared computers) and Excel-to-Word mail-merge generation, eliminating manual repetition

NYU Department of Computer Science New York, NY
Teacher Assistant, Artificial Intelligence (CS6613) September 2025 – Present

- Mentor 60+ graduate students through office hours and bi-weekly lab grading; explore AI agent architectures and design original C++ search algorithm problems for dynamic route-planning environments

Aspen Capital / Great Ajax (NYSE: AJX), Real Estate Investment Trust New York, NY
Technical Finance Lead March 2017 – January 2024

- Led end-to-end execution of 8 bond securitizations of RPL/NPL portfolios (\$3B+ in aggregate issuance), coordinating cross-functional stakeholders (underwriters, trustees, and internal leadership) through ideation, structuring, and post-issuance support
- Established KPI-driven SQL dashboards monitoring portfolio assets and ROI forecasts, enabling data-driven decisions that boosted project profitability
- Translated business requirements into technical specifications, partnering with portfolio leadership to deliver ML classification models forecasting mortgage default risk, improving valuation accuracy and bidding strategy
- Built program-level financial models in Excel projecting cash flows, IRR, and tranche pricing, ensuring accurate capital allocation and informing optimal coupon-rate decisions

TECHNICAL SKILLS & COMPETENCIES

Programming & Data: Python, SQL, C++, VBA; Scikit-learn, XGBoost, Random Forest, SVM; Jupyter, Git/GitHub

Cloud & Enterprise IT: AWS (Lambda, API Gateway, S3, DynamoDB, Elasticsearch, SES, SQS, Lex); ServicePRO ITSM; BigFix endpoint management

Project Management & Methodologies: Jira, Asana; Agile/Scrum

Business Analysis & Strategy: Requirements gathering, stakeholder management, KPI dashboards, financial modeling, ROI forecasting, cross-functional coordination, change management

Spoken Languages: English (fluent), French (fluent), Spanish (proficient)
